Demographic Distribution 2024 Pass-out Students

Demographic Distribution 2025 Pass-out Students

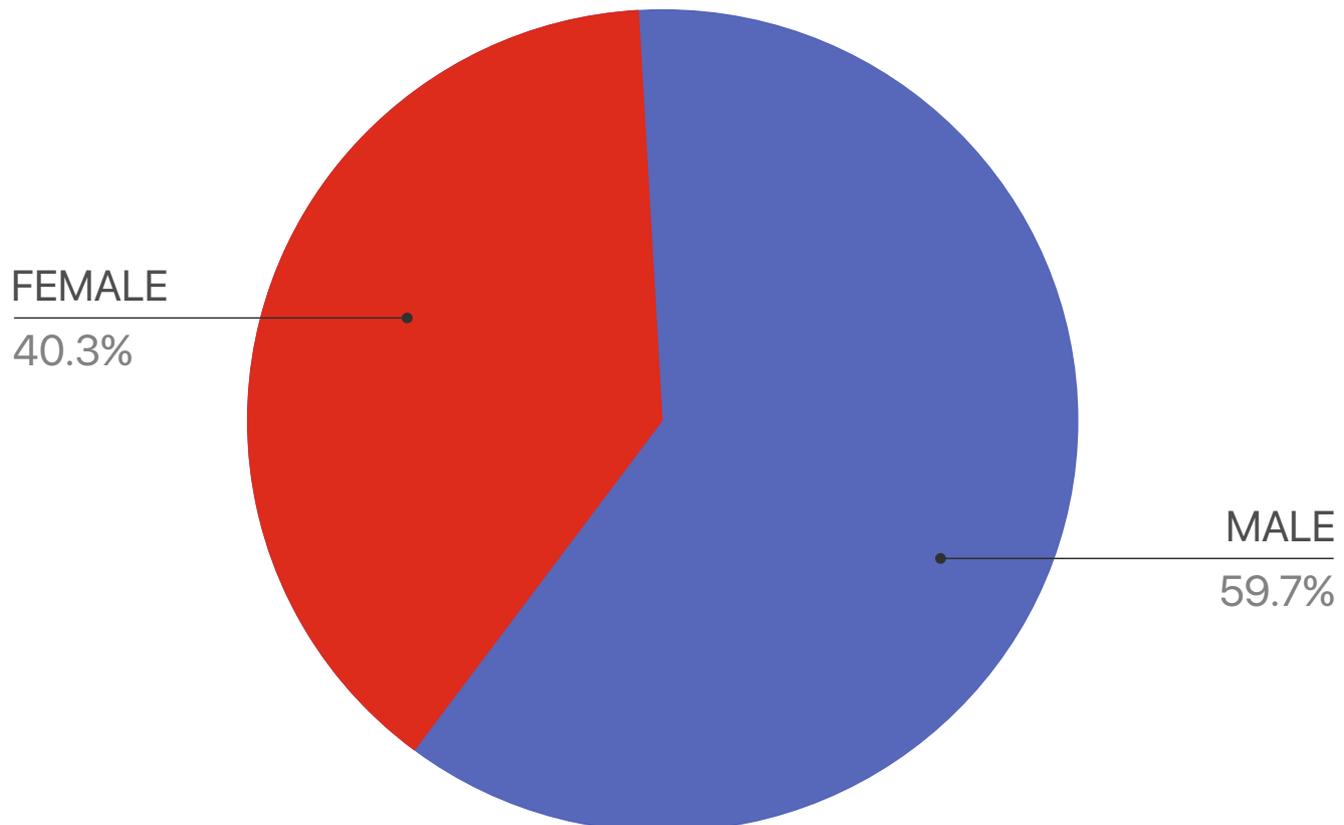

Status of Batch (2024-26)

The placement process for the 2026 pass-out batch is actively underway at DBS Global University. Several reputed national and multinational organizations are participating in ongoing recruitment drives across sectors such as IT, Consulting, BFSI, FMCG, Manufacturing, Retail, and emerging domains. Students are engaged in advanced employability training, internships, live projects, and domain-specific skill development to enhance placement readiness. Early offers and internship-to-placement conversions indicate strong recruiter confidence. The current placement status reflects a structured approach and positive momentum toward successful placement outcomes.

Gender wise Breakup of students Admitted in 2024-26

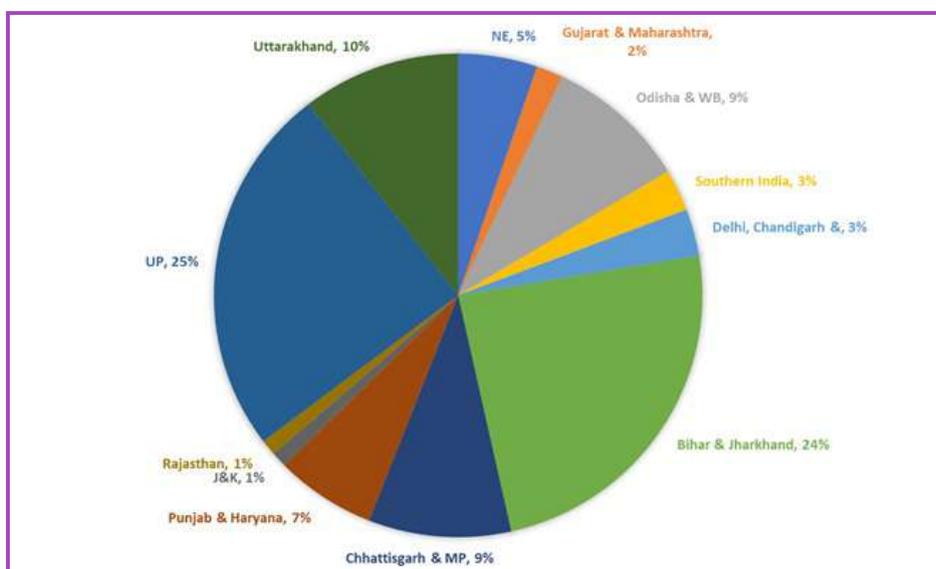

The gender distribution in the 2024 - 26 academic batches at DBS Global University reflects a strong commitment to inclusivity, diversity, and equal opportunity. A balanced representation across programs fosters collaborative learning, mutual respect, and diverse perspectives within classrooms. This inclusive environment supports leadership development, enhances student engagement, and prepares graduates for progressive workplaces where gender-balanced teams and equal participation are increasingly valued by employers.

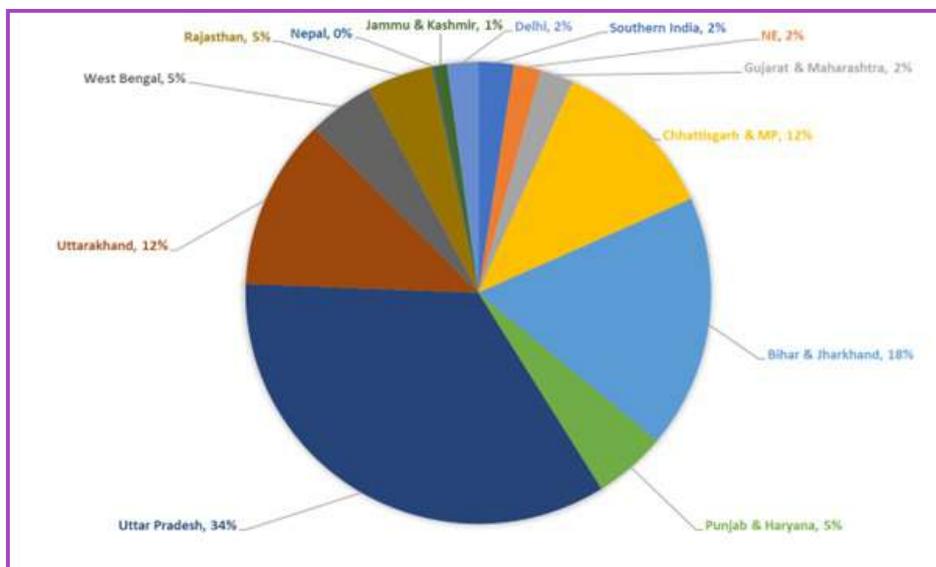

Demographic Distribution – Batch 2024 - 2026

The demographic profile of the 2026 graduating cohort across UG and PG programs reflects DBS Global University's strong national outreach and inclusive academic ecosystem. Students from diverse regions and academic backgrounds create a dynamic learning environment that enriches collaboration, critical thinking, and cross-cultural understanding. This diversity strengthens adaptability, leadership, and problem-solving abilities, preparing students for global professional roles. The cohort highlights the university's commitment to accessibility, holistic development, and nurturing well-rounded, industry-ready graduates across disciplines.

Demographic Distribution Batch 2024 - 2026 (UG Programs)

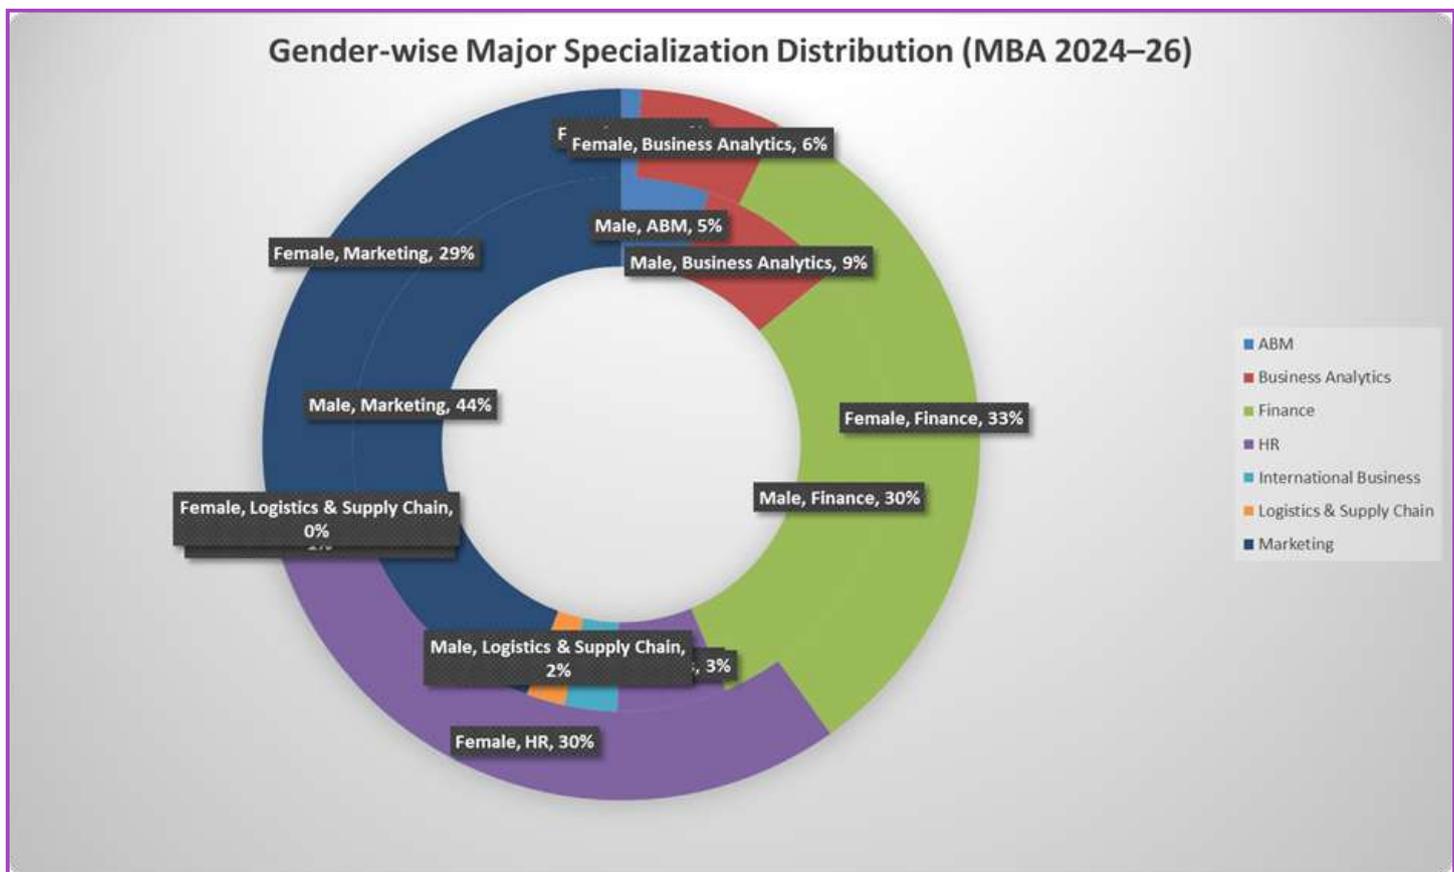

Demographic Distribution Batch 2024 - 2026 (PG Programs)

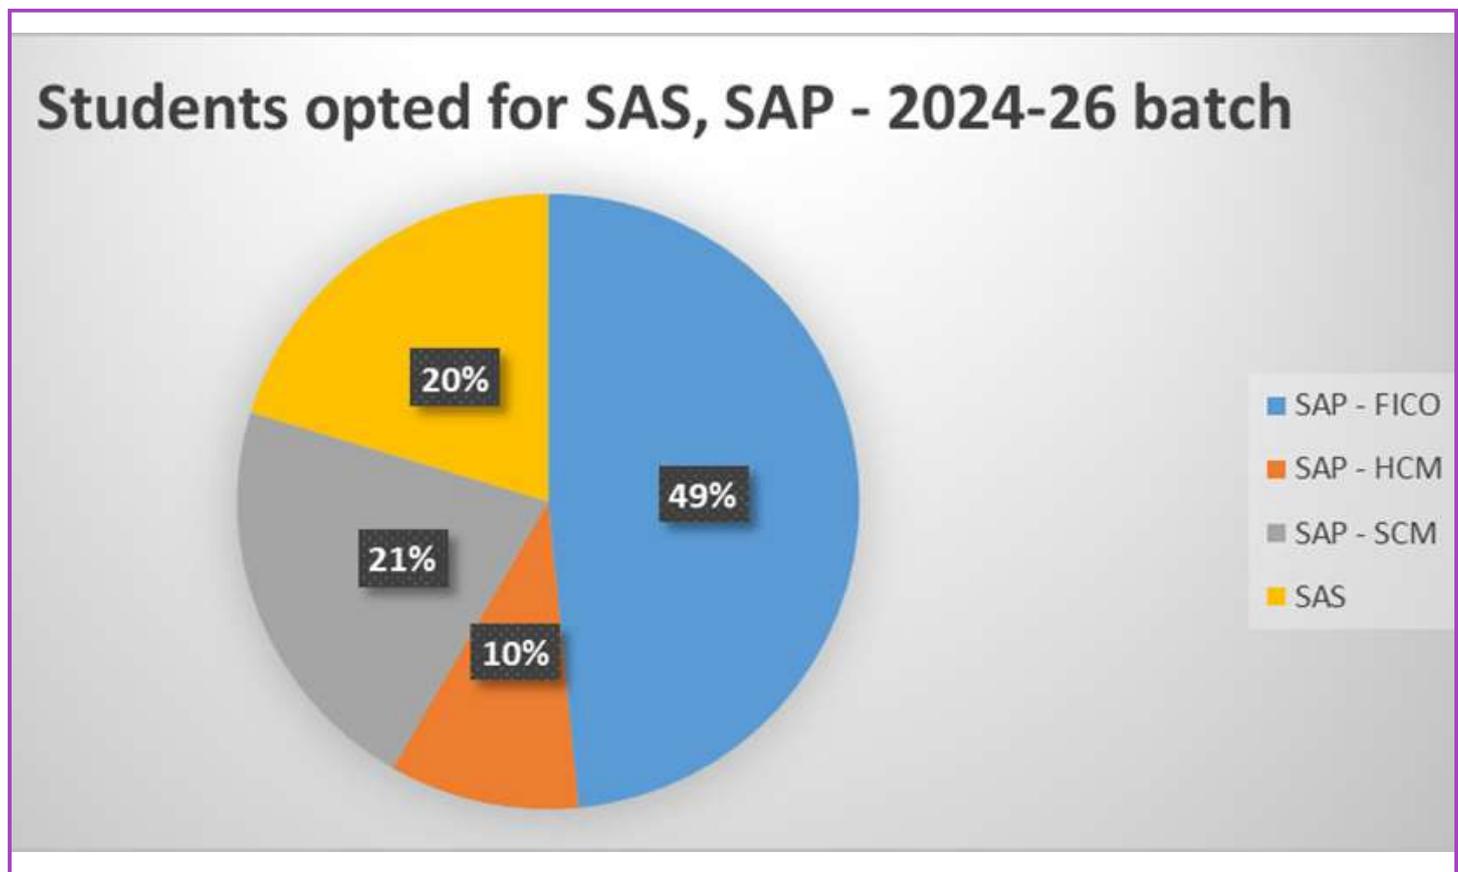

Gender-wise Major Specialisation Distribution MBA Batch

The gender-wise distribution across MBA specialisations at DBS Global University reflects balanced participation and informed academic choices. Students across genders are represented in key domains such as Marketing, Finance, HR, International Business, Analytics, Agri – Business, Supply Chain management and Operations highlighting an inclusive and progressive learning environment. This diverse representation encourages collaborative learning, breaks traditional career stereotypes, and prepares students for modern, inclusive workplaces valued by today's recruiters

Students Opted for SAP and SAS

A growing number of students at University are pursuing industry-recognized certifications such as SAP and SAS to strengthen their technology and analytics competencies. These skill-based programs provide hands-on exposure to enterprise systems, data analytics, and business intelligence tools widely used across industries. By enhancing practical knowledge and industry relevance, such certifications significantly boost employability and prepare students for roles in consulting, analytics, finance, operations, and IT-enabled services, reflecting the university's strong focus on future-ready, industry-aligned learning.

Launchpad for a Future-Ready Management Career

The management Programs are designed for ambitious students who want a powerful career launchpad than just a degree.

1. Rigorous Selection & Dynamic Cohort

Admission through CAT/XAT/MAT scores, followed by Group Discussions and Personal Interviews, ensures a high-calibre peer group. Students from diverse academic backgrounds, multiple states, and international locations create a dynamic, cross-cultural learning environment that enhances collaboration, perspective-building, and professional growth.

2. Accredited, Immersive Programs

AICTE/University-approved residential MBA and PGDM programs offer a fully immersive on-campus learning experience. The structured academic environment encourages intellectual engagement, leadership development, and continuous professional grooming.

3. Industry-Embedded Curriculum

The curriculum is enriched through collaborations with leading organizations and is designed to align with evolving industry expectations. Learning is driven by live consulting projects, advanced business simulations, Harvard-style case studies, and hands-on exposure to analytics and digital business tools, ensuring strong practical orientation.

4. Experiential Growth Culture

A strong focus on applied learning through course projects, management games, internships, and live industry challenges helps students build real-world problem-solving abilities. Global exposure through international immersion opportunities further strengthens cross-cultural understanding and global business awareness

5. World-Class Faculty & Pedagogy

Guidance from experienced academicians and industry experts ensures an innovative, application-oriented pedagogy. This approach fosters corporate-ready skills, leadership capabilities, and a global mindset—empowering students to achieve faster career growth and excel in competitive professional environments.

From Data to Decisions: Your Analytics Advantage

In a world where data drives every decision, learning analytics the right way can set you apart. Here, analytics isn't taught just through theory—it's taught through real tools, real data, and real business scenarios so you graduate with skills that companies actually use. With access to 29+ future-skill certification courses, you gain hands-on experience that gives you a clear edge in analytics-driven careers.

Learn Analytics through Tools That Industry Uses

You work directly on industry-standard platforms like Python, R, SPSS, SAP, SAS, Power BI, Tableau, SQL, and cloud technologies. From predictive analysis and data visualization to big data and business intelligence, you learn how to convert raw data into powerful insights and business strategies.

Domain + Analytics = Career Advantage

What makes the learning experience different is the strong focus on domain-based analytics. You don't just learn tools—you learn how to apply them in real business contexts:

- **Marketing Analytics:** Campaign tracking, social media insights, SEO and lead analytics using Google Analytics, HubSpot, SEMrush.
- **Finance Analytics:** Financial modeling, forecasting, and enterprise analytics using Python, SAP, Power BI, and advanced Excel.
- **HR Analytics:** Workforce analytics, performance tracking, and HR automation using SPSS, R, and HR analytics tools.

Through live projects, simulations, and practical assignments, you build a strong analytics portfolio even before graduating. The result: you don't just study analytics—you experience it, apply it, and become a data-smart professional ready for high-growth careers in the digital era.

LIFE @ DBS Global University | One of the most Vibrant Campuses in North India

Campus life is designed as a real-world platform for leadership and business exposure. Beyond academics, students gain practical experience through international immersion programs and 20+ professional student-led clubs that function as live learning labs. Through simulations, live projects, expert sessions, and leadership roles, students develop strong decision-making, teamwork, and industry-relevant skills—enabling them to transition confidently into professional roles and contribute from day one.

The Marketing Club

provides hands-on exposure through industry conclaves, case competitions, live projects, and expert sessions, helping students tackle real marketing challenges..

The Bulls and Bears Club

builds financial acumen by managing a simulated ₹1 crore portfolio with regular market reviews and strategy discussions.

The HR Club

strengthens people-management skills through competency mapping, L&D initiatives, and interactions with senior HR leaders.

Together, these clubs ensure students graduate with practical exposure, leadership experience, and strong corporate-ready competencies.
